

Overview

<https://www.kagakusan.co.jp/>

We are an advertising agency specialized in science and technology with a history of over 80 years in Japan. In addition, we offer various services such as selling promotional goods, as well as printing services for helping companies hosting seminars or conferences.

We run the websites "Scientific Products Buyer's Guide" and "Scientific Event Calendar" for researchers, engineers, and all people in scientific field.

Also, we are the seller of MALT for Windows - Thermodynamic Database.

As An Advertisement Agency / Organizer Of Exhibitions

Scientific Event Calendar

<https://www.kagaku.com/calendar.php>

Over 500 scientific events/meetings within a year can be found on this site.

MALT for Windows - Thermodynamic Database

<https://www.kagaku.com/malt/>

MALT has been successfully used all over the world by our customers since 1987.

MALT is a software that calculates thermodynamic tables and equilibrium constants for a reaction, containing chemical thermodynamic data of 4931 compounds. In addition to these fundamental calculations, MALT also includes the applications CHD (Chemical Potential Diagram) and gem (multi elements equilibrium calculation). Japanese/English supported.

Promotional Goods

<https://www.novelte.com/>

We have a wide range of products that can be personalized, handling products from both domestic and international suppliers to make our lineup unique as possible.

We are a member of PSI (#13123) and PPAI.

*PSI (Promotional Product Service Institute) is the largest network of the promotional products industry in Europe based in Dusseldorf. It consists of over 4,000 distributors and 2,000 suppliers.
